

The Edna Brewer PTSA presents

Screenagers: Growing Up in the Digital Age

a documentary film for adults and kids

Physician and filmmaker Delaney Ruston saw her kids scrolling through life, with rapid-fire thumbs and a six-second attention span, and began a quest to uncover the impacts. Ruston probes the vulnerable corners of family life, including her own, to explore struggles over social media, video games, academics and internet addiction. Through poignant, and unexpectedly funny stories, along with surprising insights from psychologists, and brain scientists, SCREENAGERS reveals how tech time impacts kids' development and provides tools to empower kids to navigate the digital world.
